This report is the legend to a map of the city of Vladivostok, which shows the locations and installations discussed in the legend. Because of the difficulties involved in reproduction of the map, only a limited number of copies are available. These copies are being distributed separately, as [REDACTED] those agencies who will find them the most useful.

25X1A

The map itself was prepared in Washington, but the locations and installations were supplied by source on the basis of his own memory and verified on the basis of the 1946 Vladivostok telephone directory and other maps. Some discrepancies exist between the map and [REDACTED] no attempt has been made to resolve these.

1. Krai Committee CPSU (Krayovoi Komitet VKP (b)):

K-11

Leninskaya Ulitsa 47. Four-story building, first story grey stone, rest yellow brick; dining room for employees in the basement. Entrance on the corner of the building, with a guard room to the right with a militiaman posted twenty-four hours a day. Visitors must show special passes in order to enter the building; the visitor must be properly identified by the official he is visiting and can then receive a temporary building pass. The guard does not accompany the visitor to the office he is visiting. On the fourth floor, where the highest party organs have offices, a second militiaman is posted and additional passes are required. The building contains all sections and sub-sections of the krai committee of CPSU and the Komsomol, as well as the representative of the Party Control Commission of the Central Committee assigned to Primorski Krai.

2. Intermediate School (Semiletnaya Shkola)

K-10

Sukhanovskaya Ulitsa. Two-story concrete building, entrance on Sukhanovskaya.

3. Krai Directorate MGB (Krayovoye Upravleniye MGB)

K-10

Southwest corner Sukhanovskaya and Ulitsa Pervogo May, four-story grey brick building. The basement, extending the entire length of the building, contains cells with half-barred windows facing on the courtyard and the street and a dining room and club and billiard room, facing on Sukhanovskaya Ulitsa, for the staff. The first to fourth floors have offices for administration and operations. Post case officers have their offices on the second floor. The entrance to the building, on Sukhanovskaya Ulitsa, shows just inside steps on the left leading to the dining room and straight ahead the guard and cells. Admittance is by pass only, and there is a twenty-four hour guard.

4. Pacific Fleet Officers Club (Ofiterski Klub TOF)

J-11

Leninskaya Ulitsa 48. Four-story concrete building with main entrance on Leninskaya Ulitsa. The first floor contains cloak rooms, a tea room which also occasionally serves spirits, a gymnasium, and locker rooms. The second floor is occupied by the theater. Left of the stairs to the second floor is a small art gallery containing, among other things, models of vessels in the Pacific Fleet. The third floor has offices of the Political Section, classrooms, and private banquet rooms. The fourth floor is devoted to storage of stage props, dressing rooms, and general warehousing. During the summer the roof is open for dancing. The club is open to the general public as well as to naval personnel.

5. Pacific Fleet Headquarters (Uchiab RKF)

J-11

Leninskaya Ulitsa 46. Four-story grey brick-and-stone building, entirely occupied by the fleet headquarters. At the entrance, on Leninskaya, with large steel gates, a sailor is stationed; admission is by pass only.

5a. Dining Room #15, Military Sales (Stolovaya #15, Voyentorg TOF)

J-11

Leninskaya 44. Two-story brick building next to Pacific Fleet Headquarters. Entrance on Leninskaya Ulitsa; dining room reserved for fleet officers only.

6. Merchant Marine Hospital (Gospital Gosmorporakhodstva)

J-11

Beregovaya Ulitsa 3. Four-story brick building, of unusual architecture, painted white, formerly a hospital for the Imperial Navy. Entrance is at the center of the building on Beregovaya Ulitsa. There is an out-patient dispensary on the first floor. The hospital offers service equivalent to that of an American army general hospital and accepts merchant seamen, officers, and employees of Gosmorporakhodstvo, and their families. Admission requires either a certificate from a ship's doctor or a civilian doctor and a note certifying relationship to a member of the organization.

7a & b Apartment House

J-11

Leninskaya 40-42. Two-story white brick building completed in 1935. Main entrance from Leninskaya. Serves as living quarters for employees of the Vladivostok Commercial Party (sic) and their families.

7c & d Apartment House

J-11

Beregovaya Ulitsa, opposite the Merchant Marine Hospital. Four-story unpainted concrete building, completed 1934-1935. Living quarters for employees of the Vladivostok commercial port and their families. Quarters are assigned by the port administration. In the rear of the building (7c), with main entrance from Beregovaya Ulitsa, is the Personnel Bureau (Otdel Kadrov) of the commercial port; the rear entrance from the court is between the apartment houses at 7a and b, 7c and d. Personnel are recruited here for work in the port area and as seamen on harbor craft. No passes are required in the building.

8. Naval Warehouses (Sklady, Voyenno-Morskoi Flot)

I-12

Pier 31. Twelve 15-foot-high steel warehouses with semi-rounded sheet metal roofs, built before 1917. These are the principal Class I supply warehouses of the Fleet Supply Section. Entrance to the area, on Kitaiskaya Ulitsa, is guarded at all times, and admission is by passes issued by the Pacific Fleet Supply Section. A railway siding permits supplies to be brought in directly by rail. Vessels tied up at the pier south of the buildings are loaded by fork lift. There is a truck park south of the buildings.

9. Physiotherapy Institute and Party Workers Dispensary (Poliklinika Partaktiv)

J-11

Leninskaya Ulitsa 40. Two-story red-brick building, built before 1917. Entrance from Leninskaya. Contains a large dispensary for party workers and commission which determines extent of disability of veterans.

9a. Annex to the Physiotherapy Institute

J-11

Suifunskaya Ulitsa 40, just south of the main institute building on Leninskaya Ulitsa. Two-story red-brick building similar to the main building, used for observation wards. Entrance from Suifunskaya Ulitsa.

10. Central Post Office (Glavni Pochtamt)

J-11

Leninskaya Ulitsa 41. Three-story, grey-brick building, old style architecture. Entrance on the east side of the building, just north of Leninskaya Ulitsa. No passes required. First floor is stamp sales, telegraph office, parcel post, etc;

second and third floors, sorting rooms and offices for postal authorities.

11. Government Department Store (Gosunivermag) J-11
Vladivostok Directorate of Government Department Stores (Upravleniye Glavosobunivermagov Vladivostoka)
501 Stroika, MVD.

Suifunskaya Ulitsa 9. Four-story, light grey brick building, formerly the Kunst and Albers Building. The first floor is partly occupied by 501 Stroika, exact designation unknown, which is believed to control all construction activities in Vladivostok involving MVD Gulag labor. It has a separate entrance from the court, bearing toward Suifunskaya Ulitsa, with a civilian guard. Admission is by pass only. Another entrance from Leninskaya leads to Univermag, which sells the following: First floor, stationery, home furnishings, hardware, cosmetics, toys, radios, and radio parts; second floor, ladies' dresses, materials, etc.; third floor, underwear, shirts, socks, etc.; fourth floor, shoes, dry goods, furniture, and motorcycles.

12. Krai Directorate MVD Fire Brigades (Krayovoye Upravleniye Pozharnoi Okhrany Fire Station No. 1 (Pozharnaya Komanda #1)) J-10

Suifunskaya Ulitsa 9. A compound containing two four-story brick buildings and a one-story brick garage, compound entrance from Suifunskaya Ulitsa, with a twenty-four hour guard, but no passes required. Headquarters and billets for the staff are in the corner building, facing the street. South of this is the garage in which all fire-fighting vehicles are stationed. The third building has motor repair shops on the first floor, art classrooms and quarters for both single and married personnel.

13. Vladivostok Central Railway Station (Gorodskoi Vokzal)
Railway Post Office Sub-Section (Zheleznodorozhnoye Pochtovoye Otdeleniye) H-12

Ulitsa 25 Oktyabrya 1. A two-story grey brick building, painted green in summer, of old fashioned architecture, with two towers at each side. Opposite the entrance is a large statue of Lenin in conventional pose. Inside the entrance is a large waiting room extending the entire length of the building. On the far side of the waiting room, opposite the entrance, a stairway on the left leads down to a station restaurant open to the public, and on the right a stairway leading to a viaduct for passage to trains. Below the stairway is a waiting room for children and mothers and beyond it another waiting room which, during the war, was a waiting room and dormitory for military personnel. The entrance to the main waiting room is in the center of the building, through double swinging doors. It is guarded, and although no passes are required, persons may be stopped and asked to show that they have tickets for the next scheduled train. No one is allowed to spend the night in the waiting room, which is closed from 0300 to 0600 for cleaning. The ticket and baggage office is on the left side of the main station building. Tickets are limited; most travelers purchase their tickets at the city office at Pogranichnaya Ulitsa 10 (see No. 210).

14. Headquarters, Maritime Border Guard District (Btad Primorskogo Pogranichnogo Okruga) H-11

Ulitsa 25 Oktyabrya. A three-story, whitewashed brick building of old fashioned style, with its entrance from Ulitsa 25 Oktyabrya. Admission is by pass only and the area is patrolled twenty-four hours a day by Border Guard troops. Part of the building is used as billets for Border Guard staff officers and enlisted personnel, and there are cells in the basement where apprehended persons are held for questioning. This headquarters controls the port pass control points (Kontrolny Propusknoi Punkt - KPP) and is also responsible for operational control of the entire Border Guard District. The main KPP is on Pier 28.

15. City Section MGB (Gorodskoi Otdel MGB)

I-9

Ulitsa 25 Oktyabrya and Ulitsa Imeni Menzhinskogo. A four-story, grey stone building of old construction. The main pedestrian entrance is from Ulitsa 25 Oktyabrya; automobiles enter the compound from Ulitsa Imeni Menzhinskogo. Entrance is by pass only and there is a 24-hour guard both inside and out. The first floor is a semi-basement containing a club, dining room, library, and the duty officer's room. The second and third floors are used by case officers and administration, and the fourth floor contains cells with windows shut off from the street by shutters.

16. Krai Directorate of MVD Militia (Krayovoye Upravleniye Militsii MVD) I-9

Northeast corner of Ulitsa 25 Oktyabrya and Ulitsa Imeni Menzhinskogo. A three-story grey brick building with entrance from Ulitsa 25 Oktyabrya. No passes are required for admission. The first and third floors are occupied by offices, the second by quarters, and the basement by cells.

17. Pacific Institute of the Fishing Industry (Tikhookeanski Institut Rybnogo Khozyaistva) H-11

Leninskaya Ulitsa 20. A four-story stone building of old construction, with entrance from the corner of Leninskaya and Ulitsa 25 Oktyabrya. The institute accepts students on a voluntary basis and specializes in the study of all factors affecting the fishing industry, such as fish migration, spawning, and production methods. It maintains its own fleet of cutters and trawlers and operates a motor park, where it is not difficult to obtain employment. The institute building has a laboratory on the first floor and classes and offices on the other floors.

18. Krai and City Prosecutors' Office (Krai i Gorodskaya Prokuratura) H-11
Lawyers' Collegium (Kollegiya Advokatov)
Krai Directorate of Industrial and Construction Materials (Krayevoye Upravleniye Promyshlennosti i Stroitelnykh Materialov)

A four-story stone building, with an entrance on Ulitsa 25 Oktyabrya. No passes are required. The building contains offices and courts for the krai and city procurators, assistants, judges, defense counsels, etc., and also has several rooms assigned to the Krai Directorate of Industry and Construction Materials.

19. Headquarters, Anti-Aircraft Defense (Shtab Mestnoi Protivovozdushnoi Oborony) H-11

Ulitsa 25 Oktyabrya 21, in the same compound as the Pacific Institute of the Fishing Industry (see #17). A three-story stone building, with entrance through an archway from Ulitsa 25 Oktyabrya. This headquarters controls overall civilian air networks and also supervises instruction of the civilian population in air-raid precautions.

20. Officers' Quarters H-11

struction, on high ground above the street level, with steps leading up to it. On the first floor are the dining room and the accounts office of the Far Eastern Shipping Directorate. On the second floor are the secretariat and the Ships' Officers' Personnel Section, the latter occupying four rooms. On the third floor are the Tribunal, a semi-military court for trying cases involving civilian merchant marine personnel, and the Special Section. This latter includes the Special Sector, which maintains files of all classified documents of the Directorate, and the Special Unit (Spetschast), which conducts special investigations.

22. Executive Committee, Primorski Krai Soviet (Kraispolkom) H-12
Krai Committee, Trade Unions (Kraikomprofsoyuzov)
Krai Directorate, Reserves (Gosmaterialniye Rezervy, Kraiuprav)

Pervaya Morskaya Ulitsa 2. A five-story, white-washed stucco building, called "Dom Sovetov" or "Dvorets Truda". On the roof is a sculptured group of a man and woman with large hammers breaking chains from around a large globe; this is symbolic of labor breaking the chains that bind it.

23. Headquarters, Vladivostok Garrison (Shtab Vladivostokskogo Garnizona) G-13

Posetskaya Ulitsa. Second building from the corner of Posetskaya and Pervaya Morskaya, a three-story, red brick structure, built in 1947.

24. Factory No. 2, Far Eastern Shipping Directorate (Gosmorpakhodstvo, Zavod No. 2). H-13

25 Prichal (Pier 25). Three long cement buildings with a corrugated iron roof, enclosed by a fence. The factory employs approximately one hundred persons and is engaged in maintenance and repair of small craft.

25. Vladivostok Commercial Port Administration (Upravleniye Torgporta) H-13

Pier 25. A three-story, white brick building. First floor, dining room and buffet for employees; second and third floors, general administrative offices, the port director's office, etc.

26. Customs (Tamozhnya) I-13
Central Pass Control Point (Kontrolny Propusknoi Punkt)

Pier 28. A two-story white building, which can be entered without a pass. On the first floor is the Customs office, on the second floor the KPP. This latter maintains rosters of all crews of vessels registered in the port except motor boats, launches, and small craft. There are several KPP's scattered throughout the Vladivostok area, generally under the charge of a major of MVD Border Guards. Incoming vessels are boarded at the dock if arriving from Soviet ports, in the stream if from abroad, by boarding parties consisting of an officer and about twenty enlisted men from the Border Guard. The party has a plan of the vessel and makes a complete search, which is far more rigorous if the vessel is from abroad. While the search is being conducted, the officer checks the documents of the passengers and crew. The entire procedure occurs two hours before docking for foreign vessels or immediately after docking for ships from Soviet ports. Masters or owners of small cutters, motor boats, and launches generally hand in their roster and clearance to the KPP for inspection; since it is assumed they are not from abroad, the boats are not searched.

27. Metallist Factory F-13

Proizvodstvennaya Ulitsa 1. Several concrete and metal buildings surrounded by

a wall, with an entrance from the city side, guarded by a militarized civilian guard. Passes are required for admission; visitors may obtain one-time passes (rasovy propusk) on the strength of their passports. The factory includes a foundry, hull construction section, garage, and administration buildings and is engaged in repair and maintenance of military vessels of small tonnage such as destroyers, trawlers, and military trawlers, and military transports. Three hundred workers are employed.

28. Naval Artillery School (Voyenno-morskaya Artilleriiskaya Shkola) F-12

Naberezhnaya Ulitsa near Pervaya Morskaya. A three-story grey brick-stucco building with a large balcony on the third floor overlooking the sea, built in 1938. Admittance is for authorized personnel, through the officer of the day. The institute specializes in training officers in coastal artillery and coast defense tactics.

29. Dynamo Stadium (Stadion Dinamo)

G-9

Battereinaya Ulitsa, with an entrance from Pekinskaya. The stadium occupies almost an entire block and is surrounded by a white wooden fence. The ticket office is near the entrance. Sports of all types are held here.

30. Park of Culture and Rest (Park Kultury i Otdykha)

J-7

Kitaiskaya Ulitsa (opposite #204). The park, a former churchyard, occupies an entire block, with a brick wall on one side and an entrance from the corner near Partizanskaya. It contains an outdoor dance hall, an orchestra stand, a small restaurant, and a summer theater. This is the largest and most popular park within the city in summer.

31. Naval Vessels

I-12

Pier 31: auxiliary vessels permanently assigned to this pier, including AMUR, ARGON, TOBOL, etc.

Pier 32 and 33: Destroyers and destroyer escorts.

Pier 34: Transports of the LVD Border Guards, such as LEITENANT SCHMIDT, TSUSHIMA, NADEZHDA KRUPSKAYA, KANCHATKA. This is also a freight pier connected with a large warehouse on the shore.

These piers are guarded at all times and are under the command of a Soviet marine major.

32. Summer Circus (Letni Tsirk)

I-11

Kitaiskaya Ulitsa 4, on the southeast corner of Leninskaya and Kitaiskaya, extending to Verkhne-Portovaya. Open from May through October, the circus includes stables, a zoo and gardens; it presents two performances daily.

33. Military warehouses (Voyenniye Sklady)

B-20

Steel warehouses of pre-revolutionary construction located in the area near the headquarters of the corps supply section (rear services - Tyl). In 1947 these warehouses were controlled by the Armored Train Corps, with headquarters in Vladivostok; they are in a restricted military area where admission is by pass only. Adjacent to the warehouses is an eight-track railroad yard where armored trains are fitted out, supplied and serviced.

34. Residential District

D-18

A district of detached houses, most of which have small gardens, and perhaps a cow. Residents are mainly permanent householders in the city, government employees, technicians, etc., but they rent rooms temporarily or permanently to transients.

35 and 36. Guard Boxes, Armored Train Corps

C-18, C-21

These boxes were established to prevent trespassers from roaming into the restricted area from the commercial port or the freight yards.

37. Headquarters of the Armored Train Corps (Shtab Voyennogo Zheleznodorozhnogo Korpusa)

C-18

Reion Egersheld, Amur Bay side, a one-story wooden building, surrounded by smaller structures serving as supply warehouses; it is not visible from the bay. This headquarters controls the Armored Train Corps, which operates twelve to thirteen armored cars, making up three or four trains from Vladivostok through to Khabarovsk. The area is restricted and under guard; entrance is by pass only.

38. Barracks, Armored Train Corps

C-18

Five to six single-story wooden buildings of various sizes, all of recent construction. All enlisted personnel of the corps are quartered here except those assigned to trains stationed along the Far Eastern Railway.

39. Officers' quarters, Armored Train Corps

C-17

Two large, one-story wooden barracks, approximately 45 yards long; for single officers and families.

40. Headquarters, Anti-Aircraft Artillery Batteries (Shtab. Zenitnykh Battarei)

Mys Tokarevskogo; a two-or three-story white-brick building. There is also a radar station, as well as an AA 85mm battery. Personnel of AA batteries on the Shkota Peninsula are quartered here. The area is restricted.

41. Quarters for Anti-Aircraft Battery enlisted personnel*

One long single-storied wooden barracks housing personnel who man AA and coastal guns.

42. Anti-Aircraft Unit Supply Warehouse*

A small, one-story wooden warehouse.

43. Naval Radar Station

B-23

On Shkota Peninsula, two miles north of Mys Tokarevskogo. There is a lighthouse; a white brick building houses the personnel; and higher up the hill two or three hundred feet behind the barracks are the radar station and antennae. The area is restricted.

44. Aircraft Observation and Listening Post (Post MPVO)

B-23

Just above the red lights indicating the entrance to the port is an acoustical

Listening device for aircraft detection, mounted on a 6x6 truck. There is also a visual observation post.

45. Anti-Aircraft Battery (Zenitnaya Batterediya)

85mm battery controlled by the AA Headquarters (see No. 40) and manned by personnel living in barracks (see No. 41).

46. Pacific Fleet Fuel Base, Pier No. 1 (Baza Goryuchego Pervogo Prichala TOF) C-22

Six round tanks containing diesel oil, crude oil, lubricating oil, gasoline, or kerosene, with pipe lines leading to Pier No. 1, where there is a pumping station. The area was formerly the central fuel base of Dalstroil. The tank section is surrounded by a wire fence and is restricted, admission by pass only.

47. Quarters for civilian workers of Pacific Fleet Fuel Base, Pier No. 1 C-22

Quarters are located within the restricted area.

48. Barracks of the Anti-Aircraft Unit C-21

Opposite Piers 3, 4, and 5 and higher up the hill. Two one-story wooden barracks house personnel who man the AA battery near by. The area is restricted.

49. Warehouses, Fourth Port District (Sklady Chetvertogo Raiona Porta) C-21 to F-17

One-story steel warehouses of pre-revolutionary construction extend from Pier 5 to Pier 9 along the waterfront. They are used primarily for food storage. Passes which are required for entry are obtainable at Otdel Gosmorpakhodstvo, office of the Director of the Port, at the gate of the Komendatura near the entrance to the commercial port area on Kitaiskaya Ulitsa.

50. Warehouses, Third District, Commercial Port (Sklady Tret'yego Raiona Porta) F-16, F-17

These warehouses, similar to those described above, extend from Pier 9 to Pier 13 along the waterfront.

51. Hospital for Infectious Diseases (Bolnitsa Infektsionnaya) E-16

Egersheld, Eksportnaya Ulitsa 19, a two-story grey concrete building on the heights overlooking the bay. This was used as a military hospital during the war with Japan but is now a civilian hospital for typhus, scarlatina, etc.

52. Higher Merchant Marine Academy (Vyssheye Morekhodnoye Uchilishche) D-16

Verkhne-Portovaya Ulitsa 50, a four-story, grey concrete building, with additional wings of brick. This academy prepares navigators, pilots, engineers, radio officers, and electrician's mates for the merchant marine. No passes are required.

65. Factory 202 Voroshilov (Zavod 202, imeni Voroshilova) Q-12
 Zavodskaya Ulitsa. The entire factory area is surrounded by a brick wall ten feet high which extends from No. 66 to Gaidomakovskaya and Leninskaya, down either side of the area to the water front. The area is guarded by two platoons of MVD guards and can be entered only with a pass. No ships are allowed to approach the factory piers except those of the Pacific Fleet. This is the principal naval shipbuilding yard in the Far East; it is frequently referred to by its former designation "Dalzavoi."
66. Directorate of Navigational Safety (Upravleniye Bezopasnosti Korablevozhdeniya) N-11
 Three two-story buildings at Leninskaya 72. The directorate is subordinate to the Pacific Fleet and also serves the merchant fleet. Its functions include hydrographic surveys, maintenance of lighthouses and buoys, issuance of navigation charts, declination almanacs, navigation instruments, etc. It operates two hydrographic survey ships, KAMCHIDAL and OKHOTSK, and three supply ships, CHUPRA, MANGUGAL, and KAMCHATKA. All personnel of the directorate must be politically reliable.
67. Brick Wall Surrounding Factory 202 N-10, N-11
68. Stadium, Factory 202 Q-12
 In the northeast corner of the factory area, bounded by Leninskaya and Maltsevskaya, and enclosed by a wooden fence. The stadium, used by factory employees, is open during spring and summer only.
69. Fleet Shore Establishment (Flotski Eki azh TOF) Q-12
 Southeast corner of Leninskaya and Maltsevskaya, surrounded by a ten-foot brick wall. The establishment consists of approximately eight large four-story red-brick buildings housing officers and men of the fleet who are in reserve or whose ships are undergoing repair. The area is entered from Maltsevskaya and passes are required. After the revolution, the area was converted to an alcohol distillery, but in 1935 it was returned to the navy.
70. Warehouse, Directorate of Navigational Safety (Sklad UBRKo) N-11
 Large steel building where all items controlled by UBRKo are issued. No passes are required.
71. Drydock, Factory 202 N-12
